

SMEG WNG24SLAA10

Washing Machine | English Product Specification Sheet

Product & Design

Product family	Washing machine
Installation	Freestanding
Loading type	Front loading
Commercial width	60 cm
Capacity category	Large capacity
Colour / body / top	Stone Grey
Control panel	NovaCare, Stone Grey
Display / LED colour	White
Function keys	Black
Programme knob	Black / Chrome
Door	Giant door, black with chrome trim
Handle	Black
Controls	Electronic
Programme labelling	Italian
Number of programmes	14
EAN	8017709337544

14 Washing Programmes

- Anti-Allergy
- Stain Removal
- Shirts
- Cotton
- Delicates
- Eco 40–60
- Wool / Hand Wash
- Mix
- Quick 14 min
- Refresh
- Rinse
- Drain + Spin
- Self Clean
- Synthetics

Available Washing Temperatures

Cold, 20°C, 30°C, 40°C, 60°C, 90°C.

Display & Options

- Display: remaining time, delayed start scheduling and programme progress
- Options: Scheduled Finish, Anti-Crease+, AutoDose, Anti-Crease, Quick, Steam, Soak
- Programme progress and end-of-cycle indicators on display

Technical Features

Motor	Brushless / Inverter
Drum material / volume	Stainless steel / 75 L
Tub	Polypropylene
Door opening diameter	34 cm
Door opening angle	160°
Automatic variable load	Yes
Anti-foam system	Yes
Load balancing	Automatic
Inspectable filter	Yes
Child safety	Control lock
Spin selection	No spin / 600 / 800 / 1200 / 1400 rpm / Rinse hold
Temperature selection	Via display / LEDs
Liquid detergent accessory	Included

Energy & Performance

Rated capacity	12 kg
Energy efficiency class	A
Energy use / 100 cycles	49 kWh
Water consumption / cycle	55 L
Spin-drying efficiency class	B
Airborne noise emission class	C
Spin noise	77 dB(A) re 1 pW
Eco 40-60 duration at rated capacity	3 h 59 min
Dimensions (H × W × D)	84 × 60 × 63 cm
Minimum manufacturer warranty	24 months

Electrical Connection

Rated power	2200 W
-------------	--------

Current	10 A
Voltage / Frequency	230 V / 50 Hz
Power cord length	140 cm
Plug	Schuko (F/E)

Compatible Accessories

- KITPLV2: 2 m extension kit for dishwashers and washing machines
- KITSPNC, KITSPNC1, KITSPNCG: stacking kits for WN & DN models; 59.8 x 3.5 x 61.8 cm

Features Explained

- Anti-Crease: adapts wash and rinse stages and reduces final spin speed to help prevent creases.
- Automatic water consumption control: adapts washing cycles and times to the amount and type of laundry.
- Automatic load balancing: adjusts spin speed to redistribute laundry and reduce vibrations.
- Control Lock: locks selected functions, programmes and controls for safety.
- Giant Door: 34 cm door opening facilitates loading and unloading.
- Anti-Allergy: intensive washing and rinsing for laundry requiring special care and thorough detergent removal.
- Cotton: for moderately or heavily soiled cotton garments.
- Eco 40-60: energy-reference cycle for normally soiled cotton washable at 40°C or 60°C.
- Delicates: gentle washing for delicate fabrics and silk.
- Mix: everyday washing for lightly soiled mixed garments.
- Quick 14 min: fast wash for lightly soiled garments.
- Refresh: refreshes seldom-worn or stored clothes and helps remove stale or smoke odours.
- Shirts: dedicated programme with steam at the end to help reduce creasing and ironing time.
- Synthetics: moderate-temperature, gentler care for synthetic and mixed fabrics.
- Quick option: shortens the selected programme when prolonged washing is unnecessary.
- Steam option: helps relax creases, refresh fabrics and address odours, dirt and allergens.
- Stain Removal: optimised wash and rinse for common stains on durable cotton.
- Wool / Hand Wash: gentle cycle for wool and delicate items.
- Self Clean: cleans the empty drum, removing residue and bacteria from low-temperature washes.
- Scheduled Finish: sets the desired completion time of the wash cycle.

Key Benefits

- Large capacity: suitable for substantial loads.
- 14 programmes: options for different everyday laundry needs.
- LCD display: soft-touch controls and LCD lights for easier operation.
- Steam Energy: steam at the beginning or end of selected cycles helps reduce stains, odours, creases and allergens.
- Inverter: designed for efficiency, reduced consumption and less wear and noise.
- AutoDose: automatic detergent dosing for convenience and reduced waste.
